Paige Godfrey

San Francisco, CA | 408-763-6067 | paagodfrey@gmail.com | github.com/paigegodfrey

---

Skills & Interests

Technologies   JavaScript, TypeScript, React, Node, Express, Jest, PostgreSQL, Git, HTML, CSS
Interests   Martial Arts, Weight Lifting, Yoga, Cooking, Diet & Nutrition
Additional   Second-Degree Black Belt in Tae Kwon Do

Projects

Kinfolx (React UI - Freelance) - https://kinfolx.onrender.com
- Worked on a team of four to build improved coffee shop website, based on original design.
- Developed landing page and optimized performance via code splitting, image compression, and lazy loading.

Jobly (React, Node, Express, PostgreSQL) - https://github.com/paigegodfrey/jobly
- Full stack mock job-search application in which users can login, view companies/jobs, and apply to positions.
- Managed global state with React Context to simplify cross component communication and improve readability.
- Built RESTful API with token-based authentication. Wrote integration tests with Jest and SuperTest.

Experience

Software Engineer Instructor & Technical Lead   Oct 2022 – Aug 2023
CodePath.org. | San Francisco, CA
- Developed and taught bi-weekly lectures to 30 Salesforce pre-interns (React, Node, Express, PostgreSQL).
- Advised 9 students through 5-week long capstone project, focusing on architecture, testing, and performance.
- Optimized and updated instructor interview materials and student labs/projects as part of program planning.
- Hired and trained 10 instructors for 90 students across 4 concurrent cohorts.

Software Engineer Intern   Nov 2021 – Jan 2022
Chronicled, Inc. | San Francisco, CA
- Developed, implemented, and tested new filter feature for contract customers using React and GraphQL.
- Fixed bugs, refactored legacy code, and standardized component design for customer-facing web dashboard.
- Contributed to React component library by creating/refactoring presentational components using Storybook.
- Wrote unit tests with Jest for new and existing React components to increase code coverage.
- Collaborated with design, product, and QA to define acceptance criteria and minimize rework.
- Used Agile SCRUM methodologies to facilitate development and fulfill customer requirements.

Software Engineer Teaching Assistant   May 2021 – Aug 2021
CodePath.org | San Francisco, CA
- Created and delivered React lectures to 35 students, covering component design, state patterns, and hooks.
- Debugged daily labs and projects to help students build full stack web applications in React and Node/Express.
- Mentored 9 students bi-weekly, providing technical feedback, career guidance, and leadership development.
- Proactively drove curriculum changes to address pain points and facilitate student success.

Financial Analyst & Training Coordinator   Jul 2013 – Jun 2019
Chevron Corporation | San Ramon, CA | El Segundo, CA | Vancouver, BC
- Coordinated global SOX training program. Managed content creation/administration and trained 200+ people.
- Developed, operationalized, and supervised enterprise-wide risk assessment program for robotic automation.
- Stewarded $80M Refinery Maintenance budget by developing and presenting monthly variance analyses.
- Led one of seven manufacturing initiatives to standardize finance activities across North American refinery sites.
- Reduced employee expense by $250,000 by streamlining internal monthly reporting processes.
- One of six college-hires selected nationwide for the 2013 Finance Leadership Development Program.

Education

Rithm School, San Francisco   April 2020
Full-Time Software Engineering Bootcamp

California Polytechnic State University, San Luis Obispo   June 2013
B.S. Business Administration, summa cum laude (3.9 GPA)
